EDUCATION

PoliTO, SISSA, ICPT, Université de Paris, Paris-Saclay, Sorbonne *September 2021 - Now*

Master of Science program in Physics of Complex Systems

Current avg. 28.65/30

Thesis: “*Attractiveness and higher-order structures in face-to-face interaction networks*”

Supervisors: Prof. A. Barrat, Prof. M. Génois, Prof. L. Dall’Asta

International Track

Expected graduation July 2023

Università degli Studi di Torino

September 2018 - July 2021

Bachelor degree in Physical Science and Technology

107/110

Thesis: “*Interacting contagion models on simplicial complexes*”

Supervisors: Prof. M. Osella, Dr. G. Petri

Department of Physics

Graduated 20/07/2021

Liceo Scientifico Statale Piero Gobetti, Torino

September 2013 - July 2018

Maturità Scientifica

97/100

PUBLICATIONS

- [1] Maxime Lucas et al. *Simplicially driven simple contagion*. 2022. DOI: 10.48550/ARXIV.2206.07645. URL: <https://arxiv.org/abs/2206.07645>.

EXPERIENCE

ISI foundation

April 2021 - July 2021

Student

Assisted senior research scientist Dr. Giovanni Petri in the study of high-order interactions and spreading phenomena on simplicial complexes. The result of this work has been the focus of my undergraduate thesis and of paper currently under review (preprint [1]).

IPSP-CNR Torino

March 2017 - June 2017

Intern

Integrated study-work experience focusing on learning basic biology methodologies.

Volunteering Activities

I am an active member of the Scout Group Torino 85. This entails various volunteering activities with the elderly and the less fortunate. Moreover, I am the chief-educator of a group of 12-16 y/o teens, managing and organizing outdoor activities, social events and field trips twice a week.

TECHNICAL STRENGTHS

- * Python 🐍, Julia, C++, ROOT, Wolfram Mathematica
- * MS Office Package, L^AT_EX
- * **Languages:** French, Italian (Native) English (Proficient).

INTERESTS

Italian politics, novels, podcasts. Sports junkie: football (Torino FC), cycling and mountaineering.
